

SA806653

Antique gold plated pocket watch

Price

Sold**Item Reference: SA806653****Date of manufacture: 1910**

Description

Antique gold plated pocket watch. The watch has a good quality stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some surface marking. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is labelled Drusus, a name registered by Paul Drusenbaum, Pforzheim, Germany in 1912. It is a handsome case with beaded detail around the lens and a sunburst effect to the hinged case back. There are minor surface marks to the case back but overall the condition is very nice for such an early piece. The acrylic lens is in good condition. The dial has a few faint hairline cracks but they are not immediately noticeable to the naked eye. The watch comes in a new presentation box.
