

SA807010

Antique silver Waltham pocket watch

Price

Sold**Item Reference: SA807010****Date of manufacture: 1910**

Description

Antique silver Waltham pocket watch. The watch has a key-wound movement, Am W Co grade, which is working nicely. This grade was in production from 1886 until 1916. The movement is fully signed and the serial number 20,754,904 dates it back to 1916. The movement is protected by an inner hinged cover. The watch measures 53mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1897. The case is in lovely condition with just some age related rubbing to the engine turned detail. Obviously the case and movement are not original to each other, one or other would have been replaced as a more economical option at the time of remedial work. The watch glass is in lovely condition. The watch has a signed enamel dial, there are three short faint hairline cracks but you need to look closely to see them. The watch will be sent in a new presentation box.
