## Description

1929 silver pocket watch with chain and vesta case. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1929, with a case maker's mark for Aaron Dennison, the Birmingham based watch case maker. The case back has a little unevenness but overall the condition is lovely. The watch glass has a few small marks but is very acceptable. The dial is in very nice condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a much later silver double albert with swivel, stamped .925. Each length of chain measures approximately 28cm long. There is also an antique silver vesta case, hallmarked for Birmingham 1894. The watch and chain will come in a new presentation box.
