Description

Antique silver trench watch, 1915. The watch has a Swiss hand-winding movement which is working nicely. The watch measures 32mm diameter excluding the fixed wire lugs and the winding crown. The case is silver and there are hallmarks inside the hinged case back for Glasgow (import mark) 1915. The case in good condition for such an early piece, just some unevenness to the back. The glass lens has a very small amount of nibbling to the edge, very difficult to see with the naked eye. The dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
