Sold

Item Reference: SA808447

Date of manufacture: 1910

Dimensions

Height = 200 cm (78.7")

Width = 110 cm (43.3")

Description

This is a very rare and unusual toy shop window display. Farther Xmas riding a reindeer which rocks back and forth on a stand with a heavy pendulum-type weight which keeps it rocking for some time . The raindeers head goes up and down farther Xmas head and arms move with the rocking. I have been told it was in a shop in Alnwick Northumberland and used up to the 1960s then stored in the basement until recently. I can send a video of it working if you're very interested. It is big standing at 6 feet 6 inches tall and 3 feet 8 inches wide. I have not done anything to clean it just exactly as I bought it. The price is £1500 and I'm not interested in offers for anything less. The pictures show the tail as green but it's white, when I put the background colour in to show it better it changed the tail colour !!! I think it's circa 1900 to 1920. It is all metal apart from the reins.
