Sold**Item Reference: SA809242****Date of manufacture: 1920**

Dimensions

Height = 30 cm (11.8")

Width = 18 cm (7.1")

Depth = 18 cm (7.1")

Description

Circa 1910-1930 a brass hydrometer pot with bronze Art Nouveau fixings that hold the original wooden handle. These were used to measure the saline in ship's engines, and this has survived well and is in good condition. It measures 30cm in height, the base is approximately 13cm in diameter and the length of the handle is 14cm. Everything is original and there are no signs of damage or repair. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad please contact us for a delivery quote.

Internal Ref: 1604
