Description

Antique Swiss silver pocket watch, 1924. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1924, with a maker's mark for the Birmingham based watch case maker Aaron Dennison. The case is in lovely condition and the engine turned detail to the hinged case back is still nice and crisp. The glass lens has light marking but is very acceptable. The dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes with a single silver chain, 31cm long, and a 1930s Walsall Football fob. The watch and chain come in a new presentation box.
