Description

1920s Swiss pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in very nice condition with crisp engine turned detail and a vacant cartouche to the centre. The glass lens is in lovely condition. The dial is in super condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a later single chain, 34cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
