Description

Antique Omega pocket watch, 1924. The watch has a stem-winding movement which is working nicely. The movement is signed Omega and it has the serial number 6,075,530 which dates it back to around 1924. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition for such an early piece with just minor marking. The inside of the case back has the early Omega logo. The acrylic lens is in good condition. The signed dial has red 24 hour numbers, these were often added to the dial at the time of the second World War. There are a couple of hairline cracks to the dial. The watch comes in a new presentation box.
