Description

A pretty antique gilt metal wall light dating from the early 20th Century with two candle sconces. It is in good condition for its age and displays well. There are minor signs of age and use but no major damages or anything detrimental. It has been re-wired to modern standards and takes small screw bulbs. We would always recommend that the light is installed by a professional electrician. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £10
