Depth = 84 cm (33.1")

Description

A fantastic pair of original Art Deco period armchairs in satin birch. These were made in Sweden, they date from the 1930's period. They are very stylish & being not over large, would work well in a living room or a bedroom. We have been bringing these various type of models over from Sweden for many years & they are always very popular. There are normally two or three types of Swedish Art Deco pairs of armchairs on our site at any one time. We also normally have a few others either here or in Sweden, which aren't polished or upholstered yet, so for those of you who want to put your own fabric on, these would be ideal. The quality is superb, these are very sturdy and well built. The frames are well sprung, making these very comfortable to relax in. The satin birch arms and base have a beautiful colour tone and patina. These have a stunning design, and look amazing from all angles. We have had these fully re-polished and re-upholstered in our cream cotton fabric, the condition is excellent for their age. Please let us know if you want to see the other models that haven't been upholstered yet. Please note that this service can't be done on any of the 3rd party platform...
