Description

Dating from the 1890's here is a fine example of a late Victorian French timepiece. The case, dial and eight day movement are in great condition and the case has adjustable front feet and is adorned with brass and gilt fittings with a gilt lion standing proudly on the top of the case. This lovely clock has had the movement recently restored and comes with my two year guarantee as standard. Rather than trusting a courier of any sort I unreservedly recommend collection or I can deliver and set-up free regionally or nationally at a competitive rate, with a full handover experience to answer any and all questions. These clocks are fragile and even the best courier damages items. Also the pendulum will need reattaching within the movement so it is far better for a dealer to meet a client and talk them through the process, or set the clock up properly for them, rather than leave the client struggling at the other end on their own.
