Item Reference: SA815946

Date of manufacture: 1930

Dimensions

Height = 4 cm (1.6")

Width = 4 cm (1.6")

Description

Very rare Georg Jensen Iron and Silver Pendant. No 5014. Designed by Harald Nielsen in the 1930s. Depicting a dove and foliage. Due to an economic depression and the onset of The Second World War, sterling silver became a scarcity and the company started a range of items in iron inlaid with silver. These pieces are now fairly rare in good condition. This delightful pendant is 4cm diameter excluding the bale and weighs 17.9g. It is in excellent vintage condition.
