

SA816610

1930s Swiss pocket watch and chain

Price

Sold**Item Reference: SA816610****Date of manufacture: 1930**

Description

1930s Swiss pocket watch and chain. The watch has a good quality Swiss stem-winding movement, 15 jewels, three adjustments, which is working nicely. The movement is protected by an inner hinged cover which has a small patch of scratches where a tool has slipped in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition. There is some marking and scratching inside the back cover. The watch glass has light marking across it. The dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There are some hairline cracks to the dial. The watch comes with a single chain, 25cm long including the T-bar and the clasp. There is also a fob. The watch and chain come in a new presentation box.
