## Description

Gents Omega automatic wrist watch, 1962. The watch has a good quality 24 jewel automatic movement, calibre 552, which is working nicely. The movement is fully signed and the serial number 19,370,587 dates it back to 1962. The watch measures 32mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the case back is stainless steel. The case is in good condition, just a little scratching to the back. Omega winding crown. The inside of the case back has the Omega logo together with the case reference 14786SC-62 which is correct for the calibre 552, and confirms the date as being the same as the movement. The lens is in good condition. The signed dial is in lovely original condition. A new leather strap has been fitted. The watch comes in a new presentation box.
