Description

An Original Antique Edwardian Desk Chair. A lovely addition to any period office. We bring to you this excellent condition Edwardian solid oak carver desk chair believed to be made between 1900 - 1920. This rare chair features a shaped back which intercepts the arm rail going down to a fret-worked back splat with shaped arm supports either side. The chair has shaped legs complete with double turned stretcher rails. We have freshly fully re-upholstered this chair with full grain chestnut coloured leather and rebuilt the inner padding traditionally using horse hair and webbing. The leather is finished with a traditional brass studded edge. This chair is solid with no loose joints or breaks and is in lovely original condition. The chair is complete with its original french polish in a lovely medium oak colour with patina which we have just enhanced by carefully waxing this item to preserve and give a natural sheen. Please note; This item is in a lovely condition for its age as shown by the photographs below, however being an antique item of this age there may be minor blemishes here and there which we feel adds to its charm and character.
