Description

A superb example of a three-piece garniture. The eight day movement striking on the hour and a half hour, in perfect working order. The enamel work on this clock has remained as vibrant as the day it was made. Many of these clocks have been left exposed for over 100 years where naturally the gilding and enamel work would degrade, Having been kept under glass domes this unique garniture is in original condition and would add beauty grace and interest to a variety of rooms
