Description

Antique Elgin pocket watch, 1912. The watch has a grade 311 stem-winding movement which is working nicely. The movement is fully signed and the serial number, 16,011,932, dates it back to 1912. The movement hinges out of the front of the case once the bezel has been removed. The watch measures 49mm diameter excluding the winding stem and the loop. The case is gold filled and it is in good condition with just general light surface marks, nothing too serious at all. The acrylic lens is in good condition. The signed dial looks good to the naked eye, there are a couple of short faint hairlines if viewed through a jeweller's loupe. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
