## Description

A fine example of an antique Sterling Silver milk or cream jug. It is an elegant piece with a reeded border, square handle and exquisite decoration. The interior is gilded and still remains bright. It is a good quality piece, weighing approximately 136g. It is clearly hallmarked for Chester, 1801 and the maker's mark I.E although I cannot attribute this to a maker. It is in good condition for its age. There are some faint surface marks, minor dinks, light signs of age and use and a small dent in the very bottom but nothing detrimental. There has been an old repair on the inside below the handle (see photo) but it still displays beautifully. It has been gently cleaned and polished is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions please ask. Tracked UK delivery £5, rest of the world £20.
