Description

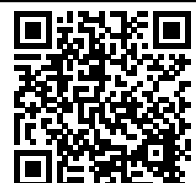

A beautiful pair of antique French marble top side tables that are kidney shaped with two drawers, which I would date to around the 1930's period. The quality is superb, these are very well made and are a very useful size. They are beautifully finished on all sides, so they can be used as free standing side tables. This makes them very versatile, they could be used as bedside tables or living room end tables either side of a sofa. They have lovely white marble tops, with pierced brass galleries with swags below, brass handles and gilt bronze mounts. The under-tiers also have pierced brass galleries. There are several different woods present & some fine inlays in lovely patterns. We have just had these re-polished, they are in excellent condition for their age, with some minor marks remaining here and there beneath the polish, commensurate for age. Width – 23 inches , 59 cm Depth – 14 inches , 36 cm Height – 30 inches , 76 cm
