Description

Very attractive & part scumble painted chest of two short over three long graduated drawers. Light coloured grained carcass with all the chamfered drawer edges & fronts decorated with burr effect. Practical & useful size, with full set of drop handles and on original turned feet. Note. This is an antique with age related knocks & marks, it has suffered from a leaking bottle of nail varnish remover or something similar with marking to the top. We have not over painted this but it is easily concealed by strategic placement as shown in the photographs. Ideal decorative item of unusual colour. (Price reflects current condition).
