Description

1909 Waltham Traveler full hunter pocket watch. The watch has a seven jewel stem-winding movement, Traveler grade, which is working nicely. The gilt movement is fully signed and the serial number 17,874,663 dates it back to 1909. The movement has a Breguet hairspring for enhanced precision, and it is all protected by an inner hinged dust cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model from the Birmingham based case maker Aaron Dennison. Dennisons supplied most of the cases for Waltham UK. Overall the case is in good condition or such an early piece, just three small "dings" and light surface marking. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in good condition. The signed dial is in lovely condition. The watch comes in a new presentation box.
