## Description

Antique silver Omega pocket watch with chain. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number, 4,379,575, dates it back to around 1914. The movement is protected by an inner hinged dust cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel with a pale gold hue. The front of the case is in good condition while the hinged case back has some unevenness. The inside of the case back has the early Omega logo. The watch glass is in good condition. The signed dial has some old damage to the edge by number 8 and one of the hands is a later replacement. Subsidiary seconds dial and outer minute track. The watch comes with a single chain, 34cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
