Description

The most decorative portico clock. The 8 day movement striking the hours and half hours on a bell with a lovely mellow sound. This clock is in a very clean condition and came from a fabulous collection of 19th-century furniture and effects. The demilune onyx platform at the top of the pillars has a fissure issue, which although minor, I will bring to your attention. It does not really affect the visual appearance of the clock when on a mantelpiece. The clock has been priced accordingly and represents excellent value for money.
