Description

1920s Swiss pocket watch. The watch has a seven jewel Swiss hand-winding movement, possibly an unsigned Record, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold plated Moon model by the Dennison Watch Case Company, an English company who made cases for various watch makers. The Moon model was originally guaranteed to wear for 20 years and it is still in very nice condition. The movement is protected by an inner hinged cover. The glass lens is in good condition. The white enamel dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
