Description

Antique Edwardian Coal Helmet Bucket. A lovely coal bucket, ideal for open fires. We are happy to offer this excellent condition antique Edwardian (circa 1900's) helmet shaped coal bucket ideal for any period property. The simple but elegant bucket features a large pivoting carry handle with floral hinges either side and a smaller carry handle to the rear. This helmet bucket is ideal for neat mess-free storage of coal or kindling. The bucket looks amazing with its beautiful highly polished brass finish perfect for any period home or even as a stand out piece in a contemporary theme. We have restored this item by highly polishing the brass, lacquering it to preserve the finish and save future polishing whilst maintaining the natural brass colour and shine. Please note this item is in very good condition for its age but will have the odd blemish here and there, as expected with an item of this age. However, we feel that these points are which adds to the charm of the item with it being an antique.
