Description

I'm offering this Oushak as it is, at a very attractive rate. The green field, green border combination is very attractive, as is the size. A finely woven oushak, showing some wear and discolouration with one corner being a bit raggedy. It would need some work to bring it up into retail condition but I have so many projects in the pipeline I am letting this one go to concentrate on existing projects. Great opportunity for a trade buy.
