## Description

Antique silver Omega full hunter pocket watch, c1910. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed with the Omega name, and it is all protected by an inner hinged cover which has a sunburst pattern to the inside, and details of medals won at the 1900 Grand Prix in Paris. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 800 silver and there are Continental hallmarks inside the three covers. The front and back covers have a little unevenness and there are traces of the original engine turned detail. The front cover has a cartouche with faint initials, GW. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which has light marking from an old lens sizing label but you have to look closely to see it. The signed dial is in lovely condition. Ornate hands (one appears to be a replacement but of the correct age), a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
