## Description

Circa 1910-1930 a pair of Art Nouveau French glass vases, similar to the type produced by Legras in France, and Emile Galle, but we cannot find a maker's mark on this pair. They are both straight! The vases measure 26.5cm in height, a 8.5cm square top, and a 11cm in diameter base. Both are in very good condition, and the slightly darker background colour on the one of the left hand side isn't as apparent in reality. Light from behind or from tea lights would illuminate them beautifully. There is a tiny scuff mark on the base of one, as can be seen in the 1st photo. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad please contact us for a delivery quote.
