Description

Circa 1910-1940 a good quality brass candlestick converted into a lamp many years ago and recently professionally rewired to UK specifications. The lamp measures 32cm in height in total; from the base to the bottom of the lampholder it is 27cm, and the base is 13cm in diameter. We have some original period glass lampshades on our website lancasterantiques.co.uk, and used with a gimble (can be sourced online) one may suit this lamp. It has been polished but not lacquered and postage and packing within the UK mainland is included in the price. For outside areas or abroad please contact us for a delivery quote.
