Description

Antique Waltham pocket watch, 1908. The watch has a signed 17 jewel stem-winding movement, grade 625, which is working nicely. The movement has the serial number, 16878270 which dates it back to 1908. The watch measures 51.2mm diameter excluding the winding stem and the loop. The case is the gold filled and is the Fortune model made by the American Watch Case Company. The case has a screw on front and back and has light surface marking from use but overall it is in nice condition for a 1908 piece. The glass lens is in nice condition. The signed dial has a very faint hairline crack at 1 o'clock but otherwise it is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box.
