Description

Early 19th century Whale tooth scrimshaw, c1800. This is an early example and it has lost a large area of the surface of the tooth. However the colour is amazing and there is enough of the scrimshaw left to give it a lovely folk art character. Please refer to the detailed photographs and feel free to contact me if you have any questions or would like to view the item. The price includes FREE UK delivery. Please contact me regarding Worldwide shipping. Size: 13cm long x 4.5cm wide x 4.5cm deep, weight 0.2kg.
