Description

Fabulous matching pair of original 1930s ethyl cellulose tube shaped shades (an early heatproof flexible cellulose). Inside is a single bulb fitting (bayonet). Ideal for any room, especially for those who like the modernist look. Wonderful ambient lighting given when switched off and they look equally impressive off too. Metal back plates that easily affix to the wall. The color is somewhere between a palest of pinks with a tinge of sepia. Will need to be re-wired by a qualified electrician.
