## 1930s Omega pocket watch with chain

Price

**Sold****Item Reference: SA835563****Date of manufacture: 1930**

## Description

1930s Omega pocket watch with chain. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number 7,745,214 dates it back to around 1933. The watch measures 45mm diameter excluding the stem and the loop so slightly smaller than the standard 50mm diameter. The case is white metal, probably white gold plated, and it is in good condition, just a little unevenness to the decorated hinged case back. The inside of the case back has the early Omega logo. The acrylic lens is in good condition. The signed dial has minor marking and a shade of discolouration to the sub seconds dial but overall is in good condition with original blued steel hands in the Breguet style and outer minute markers. The watch comes with a single white metal chain, 27cm long. The watch and chain come in a new presentation box.
