Antique Omega pocket watch and chain

Price

Sold**Item Reference: SA835624****Date of manufacture: 1910**

Description

Antique Omega pocket watch and chain. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed with the Omega logo on the regulator. The movement is protected by an inner hinged cover which has some scratching to the inside. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model by the Dennison Watch Case Company, it was usual for movements to be imported from Switzerland to be cased in the UK. The case is in good condition, a couple of small "dings" to the hinged case back and general light surface marking, nothing too serious at all. The acrylic lens has light marking, again nothing too serious. The signed dial has a small chip to the very edge but it is hidden by the bezel. The watch comes with a single chain, 37cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
