Description

Antique 1909 silver Omega pocket watch and chain. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed Omega and it is all protected by an inner hinged cover. The watch measures 47mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for London (import mark), 1909 with an importer's mark SA for Selling Agency (watch importers) and also the early Omega logo. The case is in very nice condition for such an early piece, one slight bruise to the side and just a hint of unevenness to the case back. The watch glass is in lovely condition. The dial is in super condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 34cm long including the T-bar and the clasp. Each of the links on the chain has the lion silver mark. The watch and chain come in a new presentation box.
