Description

The light teal ground of this antique Turkish runner is simply divine, one of the easiest colours to live with and it is nicely warmed up by the coral pink border and large flowers with highlights of green, cream and gold. One of the most popular colour combinations to be found in Oushaks and is likely to be a fast seller, so please jump in, if you're interested! Has been re-sized at both ends and some small professional repairs, otherwise in good condition showing light wear to the pile.
