Depth = 6 cm (2.4")

Description

This very finely carved limewood study depicts a wild boar standing poised on the forest floor amongst rocks and foliage. His ears are pricked up and alert. He has brilliantly detailed features with small eyes a flat snout and a large pair of tusks. His coat is long and wavy with good movement to the bristles and shows his muscular physique. His tail is typically curled with a bulbous s woolly tip. This fine carving is stamped on the base with the highly acclaimed carvers mark E.D . R Blatter. Swiss, circa 1870
