Description

Another very Rare Item A Victorian Childs Excercise High Chair part Yew Wood, the idea is the child grasps the iron handles one on either side then pulls down (it has 2 springs in the mechanism underneath) this hopefully will give them an appetite then they can sit at the table (High Chair) for supper. wether they were ever used for excersie is another matter, but rare all the same I only know of 3 other examples. The condition is excellent and it works perfectly. circa 1850 DIMENSIONS WIDTH 44 CMS SEAT DEPTH 23 CMS HEIGHT 94 CMS
