The watch has just been fully serviced and is guaranteed to be a genuine Omega in all respects. This watch has been fully and professionally overhauled, the process is highly detailed and meticulous. The watch is stripped down to its component parts and each part is examined under a microscope for signs of wear, any worn parts are replaced with genuine manufacturers original parts. every part is then thoroughly cleaned in a 3 stage ultrasonic cleaning process. The movement is then fully assembled using manufacturer approved oils and lubricants and is carried out in a clean room environment. The watch movement is then checked and adjusted for accurate time keeping. The cases are polished and the watch sealed. Obviously this is not a cheap or quick process which is why our watches are sometimes a little more expensive than others but you can be assured ...
