Description

An incredibly rare bow dial fusee wall clock incorporating a full size mercurial barometer to the lower portion. In excellent condition. The eight day duration, gut fusee movement with Anchor Recoil escapement, shouldered plates and knopped pillars. Behind a 12 inch diameter, bowed painted iron dial with black Roman numerals, minute ring with triangular hour markings and a further outer circle. Also, matching ornate blued steel 'spade' hands and a cast brass hinged bezel with bow glass. Contained in a well French-polished flame mahogany case of good colour. Having an Ogee moulded dial surround, two large side access doors, moulding to the trunk below the dial surround and the trunk having a cavetto shape to the lower throat which then transforms into the lower portion of a Georgian mercurial 'Banjo' wheel barometer! The eight inch diameter engraved and silvered barometer dial has a scale in inches and the centre has a scene of farmland and buildings including a windmill. The brass setting hand which is set by a bone knob above the dial is below the steel indicating hand and the cast brass bezel has a bow glass. The barometer bottom terminates with a round lower base. Th...
