Description

A really very nice example of this popular clock with hand painted dial of two pairs of budgerigars perched on branches. The opalescence is nice and the detail crisp, the hand painted dial is very clear and is one of the best ones I've seen. Moulded mark - R Lalique and engraved France Marcilhac page ref 377 Model number 765. Introduced 1926. The condition is very good with no damage or faults. The clock runs and appears to be keeping good time, although no guarantees can be given for the time keeping of the movement.
