A very good looking and well made piece. This came from central Germany, where it was originally made for, I don't know, naturally it has come from one of the great and grand manors you find dotted across that part of Europe. This is an absolute gem and looks sublime in any setting. This piece has been deep cleaned, hand condition waxed and polished from top to bottom, it will naturally have some age and use related patina marks here and there but to my eyes and hands it is a 10/10. Dimensions: Height:- 111cm, inside height: Width:- 139cm, Depth:- 44.5cm. Please note all measurements are taken at the widest point, if you would like any additional or specific measurements please ask. Any questions please feel free to ask.
