Description

Gents 1960s Omega Seamaster De Ville wrist watch. The watch has an automatic movement which is working nicely. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in lovely condition, just very light marking. The case back has the raised Seamaster emblem to the back. Signed Omega winding crown. The lens is the original Omega lens, with the tiny clear Omega logo to the centre. There is a 5mm crack near to the edge. The signed dial has light marking across it and perhaps a shade or two of darkening. Original hands, seconds sweep and quick set date (by repeatedly pulling and pushing the winding crown). A new leather strap has been fitted. The watch comes in a new presentation box.
