Gents 1950s Cyma bumper automatic wrist watch

Price

Sold**Item Reference: SA847443****Date of manufacture: 1950**

Description

Gents 1950s Cyma bumper automatic wrist watch. The watch has a 17-jewel R.420 bumper automatic movement which is working nicely. This calibre was in production from 1943 until 1954. Early automatic movements such as this one relied on the rotor 'bumping' backwards and forwards between two springs to maintain the power within the movement. Later automatic watches have the fully rotational rotor. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in super condition for a 1950s piece, just the odd minor mark but nothing serious at all. The inside of the screw-on case back is signed with the Cyma logo, as is the winding crown. The lens has light marks across it. The signed dial is in its original finish with original dauphine hands, seconds sweep and outer minute markers. There is some age related marking across the dial. A new leather strap has been fitted. The watch comes in a new presentation box.
