

SA849239

Antique Omega half hunter pocket watch, c1900

Price

Sold**Item Reference: SA849239****Date of manufacture: 1900**

Description

Antique Omega half hunter pocket watch, c1900, in beautiful condition and sold by a London retailer. The watch has a stem-winding movement which is working nicely. The movement has been identified as an Omega and it also has the small Omega logo. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case was made by the Birmingham based case maker Aaron Dennison. Dennisons supplied cases to various watch makers. This particular watch has a top quality 14ct gold filled case, originally guaranteed for 25 years, and it is in lovely condition. Beautifully ornate initials to the back of the watch. The winding crown pushes in to release the front cover. Inside, there is a glass lens which is in lovely condition (there are some lines of white reflection in the photos, that is just the light, there are no marks on the actual lens). The dial is signed with the name of the original retailer, Jones & Sons, 368 Holloway Road, 57 & 58 Upper St, London N. The dial is in lovely condition and has its original blued steel hands, including the special half hunter hour hand so that the time can be read ...
