Description

Antique silver Henry Moser pocket watch, c1900. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed with the Henry Moser trademark which was first registered in 1882. The movement is protected by an inner hinged dust cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 800 silver and there are Continental marks inside the case back. The case has a rose gold wash around the bezel and the edge of the case back although some has worn off over the years. The acrylic lens is in lovely condition. The dial has the remains of the original retailer's name although it is quite scratched. Breguet style numbers and pin-set hands plus an outer 24 hour dial with red detailing. The watch comes in a new presentation box.
