Dimensions

Height = 36 cm (14.2")

Width = 27 cm (10.6")

Depth = 27 cm (10.6")

Description

Circa 1910 - 1940 this type of oil lamp was used extensively on railways and ships, and often referred to as 'onion lamps' because of the shape. This measures 36cm in height and is approximately 27cm in diameter and still has the oil lamps parts inside. The rings around the original glass shade are brass as is the handle at the top and underneath - not seen in the photos but used to stabilise the lamp when in used onboard a vessel. We have left the brass unpolished as our customers prefer. On the wick holder on one side are the words BRITISH MADE and on the other FULL INCH and on the base the words MADE IN ENGLAND can just be seen. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad, please contact us for a delivery quote.

Internal Ref: 1590
