Sold

Item Reference: SA852854

Date of manufacture: 1930

Description

A1930s Derrick stem winding pocket watch. The watch has a good quality 15 jewel Swiss stem-winding movement, which is working well. The movement is stamped Derrick, 15 jewels, Swiss made. The movement is protected by an inner hinged cover. The watch measures 50.7mm diameter excluding the winding stem and the loop. The case is gold plated and is the Star model made by the Dennison Watch Case Company, an English company who made cases for various watch makers. The case has minor surface marking from use and a couple of mild bruises to the back but overall it is in nice condition for a 1930s piece. The glass lens is in nice condition. The white enamel dial has a very faint hairline crack between 11 & 12 o'clock but otherwise it is in nice condition. The watch has blued steel hands. The watch comes in a new presentation box.
