Description

A wonderful and very unusual pair of solid oak antique cabinets in the military style. These were made in England, I would say they date from around the 1900-1910 period. They are not quite identical, one is very slightly taller and the other is very slightly deeper, but they are definitely close enough to be used as a pair. They would be useful as side cabinets around the house and even as interesting bedside cabinets. They are made from solid oak, with lovely brass fixtures and inset leather tops on two tiers. We have had these re-polished, they are in great condition for their age, with plenty of character and charm remaining. Width – 18 inches , 45 cm Depth – 19 inches , 49 cm / 20 inches , 51 cm Height – 33 inches , 84 cm / 34 inches , 85 cm
